Subject: Billy Meier UFO Contacts

Dear Fortean,

Thanks for running the article on the Meier contacts, though my correct website is:
www.theyfly.com

And I thought you'd be interested in this following update as the professional skeptics are really scrambling now that they've publicly refused to have their photos tested according to the same scientific standards and protocols Meier's were.

It's also important to note that the skeptics have absolutely refused to test the still existing sound recordings of the UFO or, even more importantly, account for the numerous, specific, prophetically accurate, factual information that Meier copyrighted and published years, even decades, before "official" discovery or occurrence.

I wonder why that is, don't you?

Thanks,

Michael Horn
Authorized American Media Representative
The Billy Meier Contacts

FOR IMMEDIATE RELEASE

"Amazing" Randi Now Retracts Claim Meier UFO Case Hoaxed! Will Have to Pay \$1,000,000!

www.theyfly.com

LOS ANGELES, CA - In an absolutely stunning reversal of position, one that is sure to leave his skeptical cohorts in disarray and focus new international attention on the case, noted children's magician and professional skeptic the "Amazing" Randi, today effectively withdrew his unsubstantiated, defamatory claims (made on Tuesday, April 15, 2003) that the Billy Meier UFO contact case is a hoax.

In correspondence received by Michael Horn, the Authorized American Media Representative for the Billy Meier Contacts, on Sunday, March 28, 2004, Randi clearly states, "... Now, Michael has divined that I called the Meier case a "hoax." His powers of perception are REMARKABLE; he finds things where they don't exist! Wonderful!"

The staggering implications to his credibility, and that of a whole extended team of professional skeptics and debunkers, who have been publicly defaming Mr. Meier for years, is astounding. At stake, in addition to their reputations, is an award by Randi of \$1,000,000 for proof of the paranormal. Since Randi now withdraws his claim that the Meier case isn't paranormal, it logically (and legally) follows that the award is now due Meier.

While conceding the truthfulness of the Meier case, and thereby obligating himself to a rather substantial pay out, Randi may also be attempting to avoid having even more public attention directed to the failure of his associates at CFI-West, the Los Angeles branch of the international professional skeptics' organization, to duplicate the Meier photographic evidence, a challenge accepted by CFI-West in February 2001.

Undoubtedly concerned by the international criticism generated by CFI-West representative Mr. Vaughn Rees' public refusal, in front of millions of listeners on the Art Bell radio show (March 7, 2004), to submit recently produced photos from CFI-West to the same scientific standards and testing Mr. Meier's were, Randi has effectively ended the challenge to Mr. Meier.

It is clear now that after failing to sully Mr. Meier's reputation Randi has no other means of redeeming his own except by forwarding the \$1,000,000 award to Mr. Meier. There is also a \$5,000 award due Mr. Meier by CFI West since they have failed to duplicate Mr. Meier's photos, which they called "easily duplicated hoaxes".

More importantly, this remarkable development is sure to open the eyes of scientists and other interested people around the world to the authenticity, and actual content, of the Billy Meier contacts.
