Michael,

I am glad that you are progressing well with the Case and that you have been invited to present the case of the most important event in our world at other radio talk shows.

Please take a break from it if you need to and go and catch some sun. We would not want you to stress yourself too much over arrogant humans who at this time are contributing to our world DOOM by trying to banish our dear friend Billy Meier..... Kramer??!!.. DAVE??!!.. Stop starring at the wall too much and listen!!!. LOL

The NEXUS Article is excellent and well written as a short warning to the masses. With your permission Michael, I want to make a bunch of copies of them and drop them off at the Columbia University Campus here in New York City & also the PRATT Institute in Brooklyn New York as well if it is OK with you.

Salome & BE WELL

Jay

DAVE & KRAMER:

PS: For KRAMER & DAVE, like Morpheus from the Movie The MATRIX once said: "OPEN YOUR MIND"

That's why you've been sent to the back of the room, Kramer, spending too much time on the floor. Of course, this is another stunning non-responsive squeak from the famed "professional skeptics".

You're not the only one laughing.
